## **Orion Semiconductor Ltd, Pb free and RoHS Compliance Statement**

Orion are continually striving to reduce or eliminate the use of hazardous substances within our products and processes. This includes full compliance with EC Directive 2002/95/EC (Restriction of the use of certain hazardous substances "RoHS") and its amendments 2005/618/EC, 2005/717/EC and 2005/747/EC, and EC Directive 76/769/EEC (Restrictions on the marketing and use of certain dangerous substances and preparations) including its 24<sup>th</sup> amendment, 2003/11/EC.

All products manufactured by Orion comply with the above and can be deemed "lead-free" within the context of the RoHS Directive. Specifically, Orion products do not contain Lead, Mercury, Cadmium, Hexavalent Chromium, Polybrominated Biphenyls (PBB), Polybrominated Diphenyl Ethers (PDBE), Pentabromodiphenyl Ether (PentaBDE) or Octabromodiphenyl Ether (OctaBDE), above the permitted levels. All Orion products undergo independent chemical analysis testing by SGS.

In addition, Orion products do not contain ozone depleting substances, and ozone depleting substances are not used during the manufacture of our products.

However Orion makes no warranty, representation or guarantee regarding the suitability of the information provided on environmentally hazardous substances nor does Orion assume any liability arising from the use of this information and specifically disclaims any and all consequential and incidental damages.

David Slack

CEO Orion Semiconductor Ltd.
